MANY ARE INJURED IN CLASS ROOM EXPLOSION

Water Charges in Twin Cities Are in Suspense

COMMISSION WILL RENDER A DECISION LATER ON REQUEST FOR LOWER RATES

Petition for Modification of Water Company Rules Under Advisement

MINIMUM RATE CHIEF OBJECTION OF CITIES

Weakley Declares Loss Would Have to be Made Up in Other Ways

(Montgomery Bureau Albany-Decatur Daily)
MONTGOMERY, ALA., March 22.—After an informal hearing which continued a greater part of the day, the Public Service Commission Monday afternoon took under advisement the petition of the cities of Albany and Decatur for the modification of rules and regulation and rate increases which now govern the distribution of water by the Alabama Water Power.

The two cities were represented by Mayor E. C. Payne of Albany and Mayor James Nelson of Decatur, Tennessee Tidwell, city attorney of Albany, and W. T. Callahan, city attorney of Decatur, who returned home last night. The water company was represented by John B. Weakley of Birmingham, attorney and stockholder of the company.

Chief interest centered about the rule of the company requiring each family in an apartment house to pay a minimum rate. The cities contended that only one minimum rate should be collected for one connection. Mr. Weakley insisted that the cities' proposal would cause a loss of \$2,029 a year, which must be made up some way under the decision of the commission granting a return of seven per cent on an investment of five hundred thousand dollars.

Mr. Weakley filed a statement showing that the company's loss during the past six years of its operation has been more than \$100,000, figuring the valuation of the plant at \$500,000 allowing a return of \$35,000 a year to the invested capital and granting \$7,500 for depreciation. He explained that this actual loss had not been suffered but that the stockholders had paid it by their failure to obtain the proper return on their investment.

Several minor suggestions for changes in the rules were made but the chief point was in regard to the minimum charge.

Champ Typist

Miss Margaret Owen, champion typist of the world in 1913, 1915, 1916 and 1917, gave a private demonstration in the private office of Governor Kilby at the capital Monday afternoon. Miss Owen is traveling through this section of the state. Before as assembly of capitol officials and employees Miss Owen wrote 149 words from copy before her and wrote one full page of dictation from Governor Kilby as fast as he could dictate with only one error.

Barfoot Given Bond

Henry Barfoot, under indictment for murder in the first degree in Crenshaw County, will be given his liberty on a bond of \$3,000 under a decision of the court of appeals Monday afternoon. Barfoot was granted the bond by A. H. Revel, probate judge, but the state appealed. The court of appeals held that the facts did not justify a reversal of the decision of the lower court. The state appealed in order that Barfoot might be held in jail until his case is called.

Raise Asked

Contending that it is now unable to obtain a reasonable return on its investment and create a fund for extensions and improvement necessary for the proper maintenance of its

Second of World's Greatest Battle Ships is Added to American Fleet With the Launching of the Colorado

Third Member of Roosevelt Family Officiates and Breaks Bottle of Champagne Across Big Battler's Bow

(International News Service)
CAMDEN, N. J., March 22.—The United States added the second of the world's greatest battleships to her fleet with the launching here today of the super-dreadnaught Colorado at the New York shipbuilding yard in the waters of the Delaware river.

Col. Theodore Roosevelt, assistant Secretary of the Navy, and third of his family to officiate at the launching of American warships, gave the signal which sent the giant craft on its journey down the ways and Mrs. Max Melville, of Denver, broke a bottle of champagne over the bow and gave the ship its name.

In size and power, the Colorado is surpassed by no battleship afloat and is equalled by only one other battleship, her sister ship, the Maryland, launched at Newport News in March, 1920. Two other ships of the same class, the Washington and West Virginia, are now under construction.

The chief characterizations are: displacement 32,600 tons; length 624 feet; speed 21 knots; main battery 8 sixteen inch guns; second battery 14 five inch guns and 4 three inch anti-air craft guns, two submerged torpedo tubes; an enlisted complement 1,448 men.

According to the best information in naval circles Great Britain has 28 first line battleships of a total tonnage of 635,650; the United States has 15 of a total tonnage of 435,750 and Japan has 6, totalling 178,320 tons.

Prize Winners Announced for the Field Day Program Held at Moulton Saturday

(Special to The Daily.)
MOULTON, March 22.—The Field Day Exercises held on the grounds of the Lawrence County High School, at Moulton, Saturday, was one of the best ever held in Lawrence County. Below is given a list of the successful contestants as now announced by the judges, in both the literary and athletic contests: Domestic Science and Art, best cake, Tomie Lee Goodlett; second best cake, Gladys Burch; best home made candy, Lee Forney, each of the three being members of the county high school as is Panola Simpson who won the prize for the best home made garment; the second best home made garment exhibited was considered that of Eula Stockton, of the Wren school.

In the Manual Training exhibit the prize was given to F. D. Gibson, of the county high school for a book case. The Art Class of the county high school, under the direction of Miss Maggie Young, displayed a fine bit of work and the prize for the best was awarded to Pauline Roberts, a marine scene in pastel. The work as a whole was excellent.

The best selection of seed corn displayed was that of Willie Helfin, of the county high school.

Among the prizes awarded for school work was that to Guy Long, of the county high school, for the best set of book-keeping blanks; best booklet of seat work, Annie Byars, Moulton Public School; best county map, Sallie Mae Helfin, Moulton, Seventh Grade; best community map, Bertha Lee Fennell, Moulton Hope School; best citizenship poster, pupils of Moulton Public School; best composition in English, May Belle Frazier, of the Moulton Hope Public School, and for the second best Bertha Gregg, of the same school; best readers in Fourth Grade, Eveline White and Ben Holdridge, of the Moulton Public School, in second grade, Van Allen Bradley of the Moulton Hope School and Curtis Pickens, Moulton, and in the third grade, Blanche Cunningham, Jemison School, and Willard Irwin, Moulton. The best speller in the Fourth and the Fifth grade was Myrtle Montgomery, of the Wren School and in the sixth and the seventh grade, Sallie Mae Helfin, Moulton seventh grade.

The winners in the athletic contests were: 100 yards race, boys under 15, Crosby Stricklin, Wren School; for boys over 15, Edward Craig, County High School; 50 yard race, boys under 12, Clifton Montgomery, Wren School; girls, Josephine McCullough, Moulton Public; relay races, boys under 15, Moulton Hope school; girls, Red Hill School; over fifteen, Young Sibley, Morris Chapel; for girls, Gladys Sockwell, Moulton Public; standing jump, boys under 15, Warren Dutton, Wren School; over 15, Ross Pearson County High School; running broad jump, boys under 15, Walker Dutton, Wren School; over 15, McWright, County Line School; running high jump, boy of any age, McWright, brother to the above named.

Best in the physical drill, Miss Mabel Hampton, County High School. The Physical Drill given under the county high school director, John F. Stephenson, was one of the best attractions of the day.

The Red Hill School, Miss Jessie Mae Wilson, had the best attendance of any one room school—forty-one present; the Moulton Hope School with more than sixty on the grounds was best represented any school with more than one teacher; a number of other schools were almost as well represented.

The baseball game in the afternoon between the teams of the Town Creek High and The County High was not so good as desired—the score 13 to 0 in favor of the County High.

Postmaster and Justice of the Peace Charged With "Dry" Law Violation

(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, ALA., March 22.—George Higdon, postmaster and justice of the peace at Higdon, Jackson County, was arrested by members of the state constabulary Sunday on charges of violating the prohibition laws after fifteen quarts of corn liquor were found secreted in a bush heap near his home.

Earlier in the day agents of the department arrested Tom and Ben Higdon, relatives of the postmaster, and destroyed a sixty-five gallon copper still and four gallons of liquor. They are charged with operating a still in violation of state laws.

State constables at three o'clock Monday morning seized a five passenger automobile and two quarts of shiny and arrested R. A. Tinsal and C. C. Scheffeld on charges of violating the prohibition laws. Condemnation proceedings will be filed by the state against the automobile and the defendants were placed in the Crenshaw county jail at Luverne to answer charges of violating the prohibition laws.

COOPERATION OF LABOR UNION AND CIVIC CHAMBER IS PLEGGED AT MEET

Both Will Work Together for "General Uplift of the Community"

DIRECTORS PAY VISIT TO UNION MEETING

Many Speakers Stress the Need of Active Help in City Building

A motion prevailed in the Central Labor Union meeting of last night, pledging the full and hearty cooperation of that body with the Chamber of Commerce in all efforts looking toward the good and general uplift of the community.

This action was taken in an executive session of the organization, following an open meeting held for the purpose of receiving as guests the directors of the Albany Chamber of Commerce. All the directors were present with the exception of three, whose absence was unavoidable.

President W. W. Rahm, of the Chamber of Commerce was first asked to address the Union, by President H. O. Cline of the Central Union. Mr. Rahm said that he was authorized to tender the room of the Chamber of Commerce, for the use of the State Federation of Labor Convention which meets in Albany in May, which courtesy was received by the Union in the same spirit in which it was tendered.

Mr. Rahm said that in a way he was personally responsible for the presence of the directors before the Central Union; and that he was glad to speak to the labor men for many reasons, but especially for the purpose of officially denying rumors to the effect that the chamber, was opposing organized labor.

He said that so far as he knew, the United Chamber of Commerce, said to be carrying on a campaign against organized labor, had no connection whatever with the local commerce body. Mr. Rahm stressed the importance of co-operation between the two bodies, and was heartily cheered when he took his seat.

Whitman Speaks.
E. D. Whitman said that he was known as an open advocate of unionism, and that formerly he had been a member of the Farmer's Union. He declared that reason and common sense decreed that men in all callings should co-operate and encourage one another.

Former Mayor A. A. Hardage said in part: "You are men; we are men, that is all there is to it. We are friends and neighbors and should stay so. The Chamber of Commerce is not making any fight on organized labor. Even if we were disposed to do so, it would not be to our interest to do so. Our invitation to you to use the Chamber rooms is free and from the heart. We want to help you all we can when your convention meets." Mr. Hardage read a communication asking for an expression of sentiment for or against the convening of the legislature to pass a "constitutional law" calling for an election of the \$25,000,000 good roads bond issue. Mr. Hardage made a second address, just before he, and the other directors of the Chamber of Commerce retired, in which he urged the members of the Central Union to join the Chamber of Commerce if they would, but at least that they attend the meetings enough to see and hear for themselves that the chamber said and did nothing against organized labor. Mr. Hardage said he believed sentiment was unanimous for a new school building for Albany.

H. M. Priest, said that he expected he was as much a union man, as any body in the hall, as he had carried a union card for 30 years. He urged favorable action by the Central Union for the good roads bond issue. He said that he owned property in California.

First Presidential Proclamation of Warren G. Harding Calls Congress Together in Special Session April 11

Date for New Session Was Tentatively Decided Upon by Chief Executive and Senator Lodge Several Days Ago

(International News Service)
WASHINGTON, March 22.—President Harding issued his first presidential proclamation today, calling the new 67th Congress to meet in extraordinary session on April 11.

The date for the new session was tentatively selected some days ago by President Harding and Senator Henry Cabot Lodge, the majority leader.

The President's proclamation follows: By the President of the United States.

A proclamation.
"Whereas: public interest requires that the Congress of the United States should be convened in extra session at twelve o'clock, noon, on the eleventh day of April, 1921, to receive such communications as may be made by

the executive;
"Now, therefore, I, Warren G. Harding, President of the United States of America, do hereby proclaim and declare that an extraordinary session requires the Congress of the United States convene in extra session at the capital in the city of Washington on the eleventh day of April, at twelve o'clock, noon, and all persons who, at that time, will be intitled to act as members thereof are hereby requested to take notice.

"Done in the District of Columbia, the twenty second day of March in the year of our Lord 1921 and of the independence of the United States the 145th.

"Warren G. Harding."
By the President: Charles E. Hughes, Secretary of State.

"ONE MAN CARS" ASKED BY STREET CAR SYSTEM HERE

The receiver of the North Alabama Traction Company, which operates the street car system at Albany and Decatur, Monday asked the public service commission to permit it to discontinue the two-man operation on all cars and to operate them in the future with a combined motorman and conductor.

John B. Weakley, was submitted the petition, said it is necessary to cut the expense of the operation because the company is losing money and it is not considered feasible to make a further increase in rates. The commission set the case for trial April 4. The mayors and city attorneys of Albany and Decatur were attending the session of the commission at the time of the presentation of the petition.

DERAILMENT OF A. B. A. TRAIN IS PROBE SUBJECT

ATLANTA, GA., March 22.—The derailment of passenger train number 4 of the Atlanta, Birmingham and Atlantic railroad this morning near Douglas, Coffee county, "has every appearance of a deliberate attempt to wreck the train," declared Receiver B. L. Bugg today.

Number 4 was derailed near Douglas enroute from Fitzgerald to Burnsville. The engine was overturned and one truck of the first coach derailed. No one was injured.

Col. Bugg declared the switch had been wrenched so that although the rails led to the siding, the switch target showed "safe."

LOOK TO AMERICA ON MEXICAN POLICY

(International News Service)
MEXICO CITY, March 22.—The allied governments of Europe are looking to the United States to recognize the present administration in Mexico before they take similar action, according to Miguel Covarrubias, Mexican diplomatic envoy to England, who arrived here from London last night.

Senor Covarrubias said he thought the great petroleum interests were responsible for the attitude of the European governments toward Mexico. The statement dissipated the hope that recognition by France was imminent. Ever since the announcement was made that President Millerand was sending an autograph letter to President Obregon, belief had been growing that recognition by France was near.

Ferry Boat Burns to Water's Edge

A ferry boat, belonging to T. E. Pitt and operating between Riverview avenue and the Limestone County bank of the Tennessee river, was burned to the water's edge early today. The origin of the fire is unknown. The flames were discovered about one o'clock.

PROFESSORS AND STUDENTS HURLED THROUGH WINDOWS BY FORCE OF BLAST

Mystery Surrounds Cause of Accident at Emory University in Atlanta

BELIEVED ALL OF THOSE HURT WILL RECOVER

Unconscious Students Found on Lawn by the Rescue Parties

(International News Service)
ATLANTA, March 22.—Forty-two students and professors at Emory University here were pinned under debris and several were thrown bodily from windows by a mysterious explosion this morning, in the physiology building.

None of the men were injured fatally, according to Dr. H. C. Schmitter, major in the reserve medical corps who made an examination immediately after the tragedy.

The entire first floor of the building was wrecked. Seventy-five persons were in the room. A number of students were blown through the windows and were found on the lawn, unconscious.

NEGRO KILLED IN PITCHED BATTLE WITH BIG POSSE

(International News Service)
FOREST CITY, ARK., March 22.—In a pitched battle between a posse, headed by Sheriff James Sanders, and a band of 17 negroes, one negro was killed, a member of the posse wounded and 16 negroes were arrested near Kinsey, Arkansas, today.

Following the fight a still and several jugs of moonshine liquor were discovered in the house used by the negroes.

The trouble began when an automobile containing Gordon Castel and the postmaster of Kinsey was halted by a negro. The two men were forced to leave their car and were only a few feet away when several shots were fired at them from the brush at a nearby house. They escaped and notified the sheriff's office. The posse of 25 men was hurriedly organized. They met the negroes at the place and firing was opened on both sides.

After the killing of one negro, the remainder surrendered.

EFFORTS TO AVERT STRIKE CONTINUE

WASHINGTON, March 22.—The peckers and their employees will continue their conference this afternoon with Secretary of Labor Davis acting as the government mediator, while Secretary of Commerce Hoover and Secretary of Agriculture Wallace, sit on the "sidelines" in advisory capacity.

While all parties to the dispute declined today to commit on the developments of yesterday's long conference, it is believed the matter will be brought up at today's cabinet meeting. It is believed the President may, through his Secretary of Labor, convey a message to the disputants that will aid in settling the threatened strike in one of the "key" industries of the country.

MANY INDUSTRIES RESUMING WORK

BIRMINGHAM, March 22.—Resumption of operation of mills and works of every type are continuing in this district daily.

The blooming and plate mills at Fairfield on the western outskirts of this city, with a large daily output, blew in furnaces this morning and will operate on regular time.

Operations of a large pipe plant at Bessemer were resumed yesterday. Both these had been closed down for sometime and it was generally thought for an indefinite period.

Word was also received here today of the beginning of operations at the Emory pipe plant at Anniston, as a result of an agreement between employers and employees. The Eastman pipe shops at Anniston are also to resume work in a short time.

CONCERT TO BE GIVEN TOMORROW NIGHT.

The Williams Colored Singers, of Chicago, will give a concert on tomorrow night at the King's M. E. Church in Decatur. These singers have a world wide reputation, and will give a program ranging from negro melodies and lullabys to classic selections.

THE TRIUMPH OF TWO MEN

The election of W. L. Mapother, to be president of the Louisville and Nashville Railroad, succeeding Milton H. Smith, can be correctly spoken of, as a triumph, both for the late President Smith, and for the genius and ability of Mr. Mapother.

The last named gentleman entered the employ of the Louisville and Nashville at Louisville as an office boy. He has risen, step by step, until he now fills the President's chair. Could Mr. Mapother have accomplished such an undertaking, if he had not had a great railroad man as his superior, and a great executive to pattern after? Possibly he could, but the chances are that the new president of the Louisville and Nashville, if interviewed, would attribute a large percent of his success to the man whom he succeeds. And in another sense the elevation of Mr. Mapother is a tribute to Milton H. Smith. It means the endorsement of the policies Mr. Smith put into effect during the long period he presided over the destinies of the L. & N.

In an important sense the late president lives again, in the person of the man whom he trained, and whom he doubtless recommended for promotion. It takes a strong and able man to name his successor for a position as important and as much sought after as the presidency of the Louisville and Nashville Railroad. In paying tribute to Mr. Smith, for his part in making Mr. Mapother what he is today, there is no thought of an attempt to detract one iota from the genuine merit and superior ability of the new railroad executive. Unless he had had the qualities of greatness, he would have been unable to appreciate Mr. Smith and to acquire so much of his consummate ability. Had he not been a man of aspiration, he would never have attempted to rise from office boy to chief executive. While it is idle to say that all boys can do what Mr. Mapother has accomplished, as there is no large demand for Railroad presidents and besides all are not endowed with commanding possibilities—but just the same, the successful rise of the present executive to the Louisville and Nashville, should be a source of inspiration to all young men.

As a contemporary has pointed out, Mr. Mapother went to work with the one aim in view of rendering all the service possible—he thought little of his remuneration or of the time in hours he put in—his aim was to become day by day, more valuable to his employers. It was because he had such characteristics, that he met the favor and encouragement of Mr. Smith. And because these two men had a single aim, an overmastering determination to succeed and to make their railroad a success, they were enabled to work together all through the years and to go hand in hand to the many triumphs that have awaited them.

WHY DOES THE AMERICAN NAVY GO TO THE PACIFIC

The average citizen does not know that the American Navy, almost in its entirety has been ordered to the Pacific ocean. As there is only one power except our own country, interested in the Pacific, namely Japan, the thought naturally arises that our relations with that country are the cause of the move of the fleet from the Atlantic side.

Conflict between this country and Japan can arise over but two things—trade interests, and the desire of the Japs to colonize in the United States, particularly in California. In case the yellow men try to force an entrance into this country or to force us to sell them our lands and to give them full citizenship, we would be justified in making war against them.

But so far, the Japs have confined their objection to certain of our land laws to conversations and speeches. And even when Japanese students have become too extreme in their utterances against this nation, the Tokio government has suppressed such free speech with force. There is no evidence, in sight, at least, that the Japs intend to force an entrance into America.

If it is "dollar diplomacy" that is back of the apparent effort to show Japan what a power we are, such a move will meet with no encouragement in this country.

This nation will never willingly go to war with any nation, not even with Japan, in order to maintain an "open door" for trade and commerce. If every agent of big business were driven out of Japan and China, the common people of America would prefer that, to sending soldiers and guns to enforce some secret treaty trade rights! On the other hand this nation has spoken as to whether or not America is for the white race alone. We will maintain the supremacy of the Caucasian race on the North American continent at all costs. That supremacy has never been seriously questioned, and perhaps never will be in our day. Until such a time comes, it is the part of wisdom for this nation to avoid every appearance of a threat against any nation, Japan included. In every day affairs, if two men are engaged in a dispute, (similar say, to the ones we have recently had with the Tokio government,) and one of these men should reach for his knife, his opponent would not be punished if he shot to kill. Now, if our naval activities in the Pacific should be taken by Japan as a menace to her safety and to peace, troubles of a serious nature might result.

Our nation as well as all others should go slow in making an exhibition of power.

NORTH ALABAMA WORKERS START BUILDING ACTIVITY

Albany-Decatur brick masons, plasterers and stone cutters have voluntarily reduced their wage scale to a pre-war level, it is announced in Wednesday's issue of the Albany-Decatur Daily. The action was taken, it is said in the interest of public spirit, to encourage early resumption of building construction in the North Alabama cities on a large scale.

Following the action of the building crafts, and the attendant reduction in the prices of building materials, the Albany-Decatur paper says it has become known that a number of people there are planning the erection of residences this spring, and a boom in building is expected within the next few months.

In taking the action they did, the building workers of the Twin Cities evidently have shown good business judgment. It will be better for them to work even at a lower wage scale than they received during the war, than to remain idle and make nothing, and by voluntarily reducing their wage scale they have created a demand for their labor, and at the same time have helped to relieve the housing situation and have given an impetus to building activity that will help all lines of business in the two cities.—Anniston Star.

CRUCIFIED—For a moment he dreamed a vision so bright that it blinded the world. He thought to mould convictions while the woe of war was as vivid as a gush of blood; while men were as soft as hot iron. But the politicians got at him; tossed him as dogs toss a bone in the streets; sent scurrilous whispers out mocking, mocking, mocking!

Europe has returned to the old, contumacious order of things. Much pilfering is underway. More wars are breeding. There will come a day when old men, sensible of the spikes they drove, will bow their heads in reverence before the statue of Woodrow Wilson. There will come a day when smaller men will subscribe to a league of nations. If you are a follower of prophecies, mark these predictions.

MULTIPLYING—Whenever a law is placed on the books in violation of the moral beliefs of a bare minority of the people, that law is non-enforceable. Whenever a law is not enforced, it brings order to a state of disrepute. It would be a wise thing—far too wise a thing, we fear—if the various legislatures should devote a single session to the repeal of laws which conflict with public sentiment. The way things stand, there is lax faith in justice. So many things are wrong to do that it is rather difficult to know just what to do.

BUCKETS OF BLOOD—Give us bright red triangles. Give us action. Zip! Pep! Baras straight. The movies are the theaters of the people. The movies are raw, morbid, sexy, redolent of crimes executed in an atmosphere of perfume. The movies are exactly what our patronage makes them. If we reform anybody, let's first reform ourselves.—Holland's Magazine.

WHITE HOUSE ZOOLOGY

President Taft had his famous cow Pauline, a highly bred Guernsey. By accepting the offer of a Libertyville, Ill., breeder as he is inclined to do, President Harding may have a champion Jersey to make her way to milky fame at the White House. Between our latest Republican Presidents there has been Mr. Wilson with his little Democratic flock of sheep.

Some day it may occur to somebody to write a measurably full story of the White House pets, useful and otherwise. The name of these is legion for nearly always there have been the children or the grandchildren of Presidents in the Executive Mansion and little folks are the true and catholic lovers of animal playfellows. One remembers the pet badger given by a little girl of Sharon Springs, Kans., which became the delight of the young Roosevelts in the Rough Riders' administrations.

Horses there were always at the White House in before-the-motor days and for a few years after. There was a coachman of color, one Albert Hawkins, who in 1890 was able to boast that he had driven spanking teams for six Presidents, beginning with Grant. One of his charges was the gentle bay called John who used to eat sugar from the frail hand of Mrs. Harrison. And of course there have been ponies.

Records at hand show no humble, practical pig among traditional properties at the White House. On the other hand there is no listing of the vain, imperial peacock. These extremes may be reached yet in the process of making completely the zoology of executive Washington.—New York World.

Albany-Decatur are making things hum for street building improvement. Long years ago Huntsville adopted such a program and it proved a town blessing; however, of late years nothing has been done along that line and with the growth of the town a fine sentiment is developing to get rid of the ruts in other thoroughfares. Sidewalks are also to receive attention.—Huntsville Daily Times.

Former General Von Hindenberg, famous line maker, said recently that Berlin had gotten so bad he did not want to put his foot in it. Von put his foot in it when he tried to put his foot in Paris by Christmas 1914.

A certain Chicago man has decided to dig his own grave. Such a man is either very selfish or very unselfish. The grave diggers doubtless think the former.

For the last four years the Republicans have been "viewing with alarm," and the Democrats "pointing with pride." The procedure will be just reversed for the next four years.

If the state of Tennessee is the Solid South, then Mr. Harding has broken it; otherwise the solid South is still the solid South.

If the "blue laws" of our Puritan ancestors had remained in full effect, we would never have had to enact "blue sky" legislation.

What is so rare as a summer day on March 22nd.

ENCOURAGE BIRTH RATE IN FRANCE

(International News Service)
PARIS, March 22.—The County Council of the Seine has voted 300 francs to the parents of every third child born in France during 1921, and has appropriated 40,000,000 francs to meet the claims. A graduated scale has been provided which gives the parents a sum for every additional child up to the tenth, at whose birth the parents receive 650 francs.

The council has also discussed plans for improving the health conditions among children. At present 100,000 children of the 750,000 born annually in France die before reaching the first year.

In addition to extensive health work carried on by private organizations such as the American Red Cross, the French Government will greatly increase its budget for health work. There will be an increase of Government insurance of maternity; new maternity hospitals will be established; infants will receive free periodic medical examinations and mothers receive advice as to child nourishment and care.

The Story of Our States

By JONATHAN BRACE
XVII.—OHIO

THE Northwest Territory, of which Ohio is a part, was a bone of contention between Spain, France and England. Spain's claim was based on the voyage of De Soto up the Mississippi river. France, through the explorations of La Salle from the north and the early entry of French priests from Canada, considered this territory theirs. As for England, she rested her claim on the discovery of North America by the Cabots, and in the charter granted to Virginia included all the country lying to the West.

The French were the first to get a foothold in Ohio, but the English pioneers, who shortly began to drift westward, firmly established their settlements in the fertile Ohio valley. After a long period of warfare, in which the Indians played a leading part, the Northwest Territory was finally ceded to the United States by the Treaty of Independence in 1783. And Virginia and other states, which had laid claim to portions of this region turned over their rights to the federal government.

The government of the Northwest Territory was formally created by the ordinance of 1787. People from the East migrated into this territory in such numbers that by 1803 Ohio was taken into the Union as the seventeenth state. The fourth largest state in size of population, Ohio has 24 electoral votes for President, while in area, with its 41,400 square miles, it ranks only thirty-fifth, which shows how densely it is populated. It is noted as the state of Presidents. President Harding makes the seventh Ohioan to fill the presidential office.

The name Ohio is derived from the Iroquois word O-hee-yo, meaning "beautiful river." It was first applied by the Indians of the Five Nations to what we now call the Allegheny river, one of the chief tributaries of the Ohio. Gradually the name came to include the whole river, sometimes even being applied to the Mississippi. Later it was confined to the river between Pittsburgh and Cairo, and appropriately the first state formed on its northern bank was named after it. Ohio is often called the Buckeye State from its large number of horse-chestnut trees. (© by McClure Newspaper Syndicate.)

The knotted parts of the sugar-maple furnish the pretty bird's-eye maple of cabinet makers.

Fruits thrive in Australia only in Queensland.

His Conscience Troubled Him

"I know I have done wrong, please forgive me for not doing my duty and writing you before. I am thankful to God for the good remedy He gave you, and would not take \$500 for the good the first dose gave me. I have been bothered for many years with gas in my stomach and indigestion, but since taking May's Wonderful Remedy two years ago, have had no such trouble. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. S. M. Thompson in Albany, Owl Drug Co., in Decatur, and druggists everywhere.

Commission Will Render a Decision

(Continued from Page 1)

service, the Alabama Power Company Monday asked the Public Service Commission to grant such an increase in street car fares at Huntsville as will permit this reasonable return. The commission set the case for trial April 8 and notified city officials of Huntsville.

While no suggested fare was included in the petition, it was understood at the commission that the company will seek to establish ten cents as the reasonable fare.

Teachers Leave For State Meet

(Special to The Daily.)

MOULTON, March 22.—Teachers and school officials of Lawrence County, who are expected to attend the State Teachers' meeting at Montgomery, are leaving today for the remainder of the week; inasmuch as there are many of the schools to close this week a number of the teachers will not attend but the membership in the association is from Lawrence County is larger than ever before.

Uniform County Seventh Grade examinations are to be given in all rural schools this week having pupils qualified to take the work. A county commencement will then be held at the close of the county high school early in May at which time the successful applicants will be given county elementary certificates. The schools running six, seven and eight months will give their examinations at the close of their terms and the pupils will also be entitled to receive the certificates if qualified.

HERE'S SAD FLIGHT FOR YOUTHFUL BRIDE.

What Would You Do if You Found Your Husband of a Day Had Married You For Your Money?

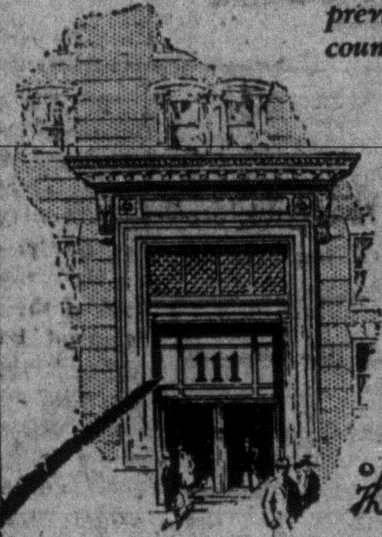

What would you do if on your wedding night, you suddenly discovered that the man you loved did not marry you because he loved you, but merely for your fortune?

This is the situation Bessie Bariscale finds herself in as Muriel De Koven, a beautiful young society girl in her latest production, a Robertson-Cole Special, which will be the principal attraction at the Princess Theatre today.

Oddities of the Sex.
"Funny thing about men," remarked a pretty lass at the beach; "they are delighted when we girls forget how to swim and annoyed when we forget how baseball is played."—Boston Transcript

Your Opportunity
"111"
"ONE-ELEVEN"
20 cigarettes 15¢

CERTAIN fine types of tobacco, previously used for export, piled up in the United States due to the high rate of exchange. From these high grade tobaccos we have manufactured "111" (ONE-ELEVEN) CIGARETTES—a new product—a quality product—made of tobacco never previously used in cigarettes in this country.

FINALLY try them!

Guaranteed by The American Tobacco Co.

ONE-ELEVEN (111) 5th Avenue, New York, is the home office of The American Tobacco Company. The American Tobacco Company has been serving the public with fine tobacco for many years. It commands the experience and skill to prepare and know good cigarettes. Do you think, Sir—The American Tobacco Company would give the address of its home office as the name of a new cigarette if it did not believe that the blend would please you?

NOTICE!

I will discontinue delivery of Groceries after March 31. April first and thereafter, I will sell you goods at a price that will save you money.

THOUGHT

If you have two leaves of bread—sell one and buy a hyacinth to feed the soul.—Chinese Philosophy.

ROBERTSON-EASLEY

The following invitation has been received by friends here:

Dr. and Mrs. A. T. Robertson request the honour of your presence at the marriage of their daughter Eleanor Martin

to Mr. John Allen Easley, Jr. on Tuesday, twenty-ninth of March at eight o'clock in the evening Fourth Avenue Baptist Church Louisville, Kentucky

At Home Manning South Carolina

The bride-to-be is a grand-daughter of the late John A. Broadus, the eminent Baptist divine. Miss Charlotte Broadus will go from Judson College to be a bride's maid at the wedding.

Mrs. Godfrey of Decatur is the guest of her daughter, Mrs. Bruner Smith.—Mr. and Mrs. Eugene Duncan and children of Decatur are spending a few days with Mrs. Duncan's parents, Mr. and Mrs. J. Fred Johnson.—Mrs. John Pointer leaves this week for a visit in Decatur.—The Florence Daily News.

Miss Jane Knight, daughter of Mr. and Mrs. John W. Knight, has undergone an operation for appendicitis at St. Joseph's hospital, Atlanta. Her many friends will be glad to know she is progressing well toward recovery.

Mr. and Mrs. R. H. Wolcott have returned to Albany following a brief visit to Mrs. A. C. Graham, Randolph street.—Huntsville Telegram.

Mrs. E. A. Harris is very ill at her home on Third avenue West.

INFORMAL GATHERING

Mr. and Mrs. P. A. Lyle entertained last evening at an informal party at their home on Gordon Drive, honoring Elmore Kell who leaves soon to make his home in Hartselle. The reception rooms were artistically decorated in ferns and spring flowers. Games and music were the features of the evening. At a late hour the guests were invited to the dining room where a delicious ice course was served, from a prettily appointed table centered by a crystal bowl of cut flowers. Mrs. Lyle was assisted in serving by Mrs. Elton Reeves. Those included in this hospitality were: Misses Lizzie Smyrl, Annie Watson, Mabel Thompson, Ozell Sartor, Messrs Elmore Kell, Claude Sutton, Howard McGehee, Huber Allen and Leldon Slyley.

WE ARE IN THIS CONTEST TO WIN

Every woman in Albany who has a car at her disposal should have pride enough in her town to offer her services to the Chairman of the Cleanest-Town-Contest Mrs. J. W. Cunningham, phone number 265, for the week of March 23-30, just to ride around at her direction. Phone her now!

Merchants Attention! Do you want the very best advertisement you ever had? Help make Albany the Cleanest Town in Alabama. Here's a secret. One of the points against us last year was the conditions in the business districts of Second Ave., and adjoining streets and Fourth Ave. South—business district.

Every block in Albany has a Chairman, co-operate with her, women of Albany! The Junior Civic Society will be on call, and the school children are anxious to do their part, call on them. Tomorrow the work begins! A long pull! A strong pull! A pull all together!

E. C. PAYNE, Publicity Chairman.

THE LAW OF TEAM WORK

The good American works in friendly cooperation with his fellow workers.

In whatever work I do with others I will do my part and will help others do theirs part.

I will keep in order the things which I use in my work, where things are out of place, they are often in the way, and sometimes they are hard to find. Disorder means confusion, and the waste of time and patience.

Mrs. J. A. Cullom, of Nashville, is the guest of her sister, Mrs. W. N. Hall.

Miss Helen Camody and Mrs. Watson left this week for San Antonio, Texas to be gone several weeks.

Mrs. S. H. Wilds and infant son are the guests of Mrs. Wilds' parents in Auburn, Ala.

COUGHED SO HARD HE WAS READY TO DIE

But he recovered quickly and gained 9 pounds in 5 weeks.

"Last December I caught a heavy cold, which left me with a deep-seated cough. I coughed so hard it would start the blood. I thought I was a goner, until I tried Milks Emulsion. I used 9 bottles altogether. My cough is gone, and I have gained nine pounds in five weeks. If anyone doubts it, let them write me." Chas. L. Walters, 147 So. 18th St., Pittsburgh, Pa.

When hundreds upon hundreds of people tell you of just such recovery, just such gain in weight, it must be worth your trying, at least. A trial costs nothing. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly out the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved. It produces remarkable results in colds, coughs and bronchial asthma.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children. No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 75c and \$1.50 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

Sold by Thompson's Drug Store, Albany, and Beason-Cobb Drug Co., De-

Mrs. E. A. Harris is quite ill at her mother's home on Third avenue West.

Miss Ruth Sharpe spent the weekend in Elkmont, the guest of Miss Bertha Shipcock.

Mrs. Roger Gardner, little daughter and sister, Miss Susie Gardner, of Rogersville, Ala., are guests of relatives here.

Mrs. J. J. Rose was called to Trinity early this morning to be at the bed side of Mrs. John Lile, who is seriously ill.

Mrs. John Pointer of Florence will arrive tomorrow to spend the Easter holidays with her sisters, Mrs. Milton Harvey and Mrs. Phil Humphrey.

Mrs. Bruce McDaniel of Mount Pleasant, Tenn., is visiting Mr. and Mrs. Frank Emmerson.

Miss Sarah Humphrey, student of Women's college, Montgomery, will arrive tomorrow to spend the Easter holidays with home folks. Enroute home, Miss Humphrey spent a few days in Florence, the guest of her aunt, Mrs. John Pointer.

Mrs. J. A. McBride accompanied by her niece, Miss Bessie Simrell, will arrive this afternoon from Dallas, Tex.

Mrs. R. E. Pettus has returned from Trinity, Ala., where she was called to attend the bedside of her brother Mr. Jas. H. Gunn.—Huntsville Times.

PERSONALS

Leon S. Robinson, who was operated in recently in a Birmingham hospital or appendicitis, is reported to have stood the operation well, and as being on the road to early recovery.

I. S. Robinson Sr., who has suffered a severe attack of a complication of leishiasis, has greatly improved. Mr. Robinson is now able to walk about the house and yard.

E. F. Rhinehart, on yesterday purchased the Buis property on Moulton street, West Albany.

Fred Henry, until his severe illness in the fall, proprietor of a grocery store on Moulton street west, is greatly improved in health after a long visit to Florida. Mr. Henry plans to reenter his old employment, that of telegrapher.

D. C. Vohlers is confined to his home of illness.

W. C. Cornelious of Birmingham is visiting his niece, Mrs. A. J. Sneed on Moulton street.

MISSIONARY SOCIETY

CENTRAL M. E. CHURCH

The Women's Missionary Society of Central M. E. Church, met in the pleasant home of Mrs. Virginia Graham Monday afternoon, March 21st. In the absence of Mrs. Gronendyke, Mrs. Graham took charge of the meeting and read the scripture lesson. Mrs. Rose led the prayer. The last chapter of the Bible and Missions, was our lesson which proved to be a book of interest from beginning to end. The president Mrs. J. L. Procter being absent, the vice president, Mrs. E. F. Lovin took the chair and conducted a short business session; at the close of which the Lord's prayer was repeated in concert. Altogether a pleasant and I trust a most profitable hour was spent with our hostess.

MRS. J. J. ROSE, Publicity Chairman.

Dates of the reign of Ramess VI were established from astronomical records found in his tomb.

The idea of a ship canal across the isthmus of Panama was entertained as early as 1128.

EAST MARKET

The ladies of the First Christian Church will hold an Easter Market on Saturday afternoon at the store of E. L. Thomas. Adv. M22-23-34-25.

Masons Observe Maundy Thursday

All Scottish Rites Masons, above the 18th degree inclusive, today were requested to meet at the First Methodist church, Decatur, at 7:30 o'clock Thursday evening for special services in observation of Maundy Thursday. The request was signed by C. C. Robertson.

Saunders Cortner is Steadily Improving

A wire from the bedside of Saunders Cortner, who was seriously injured at Staunton, Va., recently, brings the cheering information that he is steadily improving and it is hoped that within three weeks he will be able to return home.

A SONG ON THE WATER

Faintly as tolls the evening chimes. Our voices keep tune, our ears keep time. Soon, the woods on shore will look dim, Then we'll catch the echo of their parting hymn. Row faster! row faster, the stream runs fast, The rapids are near and the daylight is past.

Why should we yet, our sails unfurl? There is not a breath the blue waves to curl! But when the wind blows off the shore, Then sweetly we'll rest our weary oar.

Relentless tide! This trumbling moon. Shall see us float over thy surges soon. King of this green isle. Hear our prayers; Oh, grant us cool heavens and favoring airs; Blow, breezes, blow, the stream runs fast, The rapids are near and the daylight is past.

—MRS. A. M. CROOK.

NEED FOUR MILLION TO POLICE BOSTON.

BOSTON, March 22.—More than \$4,000,000 will be needed to run the Police Department of the City of Boston for the current fiscal year, according to a formal statement issued today by James H. Devlin, Commissioner of Police.

Why We Are the Cleanest Clothed People in the World

Said a famous Frenchman, visiting America for the first time: "Ah—you Americans—you are the cleanest clothed people in the world. I envy you!" We have reason to believe he meant what he said.

Clothes sent "out" in Siam are usually washed in a village pond—one water for everybody's washing. Blow-can sprinkling is universal among the Chinese. In Mexico it is well known that laundresses rent out apparel of their patrons—many instances are related of men meeting their own shirts on unfamiliar backs. Europe, too, has its unusual customs.

Yet, clothes look clean in these countries—the difference is that here we have linked up sanitary service with our laundering. With us, clothes are sterilized as well as cleansed.

This will illustrate:

Everything in the family bundle is washed in five to ten baths of cleansing suds and rainsoft water when you send it to us.

Javelle water, used so extensively during the war as a purifying agent, also plays its important part.

Sterilized, superheated air of 210° to

280° temperature is used in drying. Still other pieces are dried in ironing at a temperature of 320°.

Clean clothes never come into contact with the soiled—wrapping in aseptic paper, in a special shipping room well removed from the receiving room, is the final step.

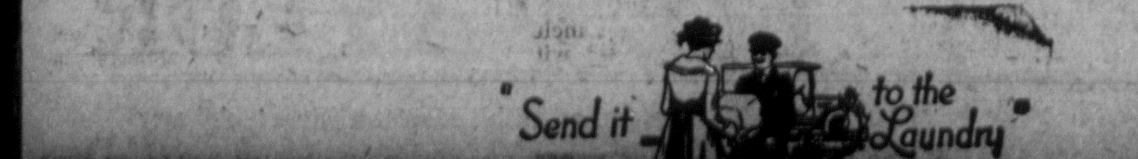

Your family washing, sent to us, is refreshed and cleansed inwardly and outwardly—actually made purer than the milk we drink.

And it is well to remember that this service of sanitation—which helps keep us the cleanest clothed people in the world—is obtainable only in a professional laundry, like ours.

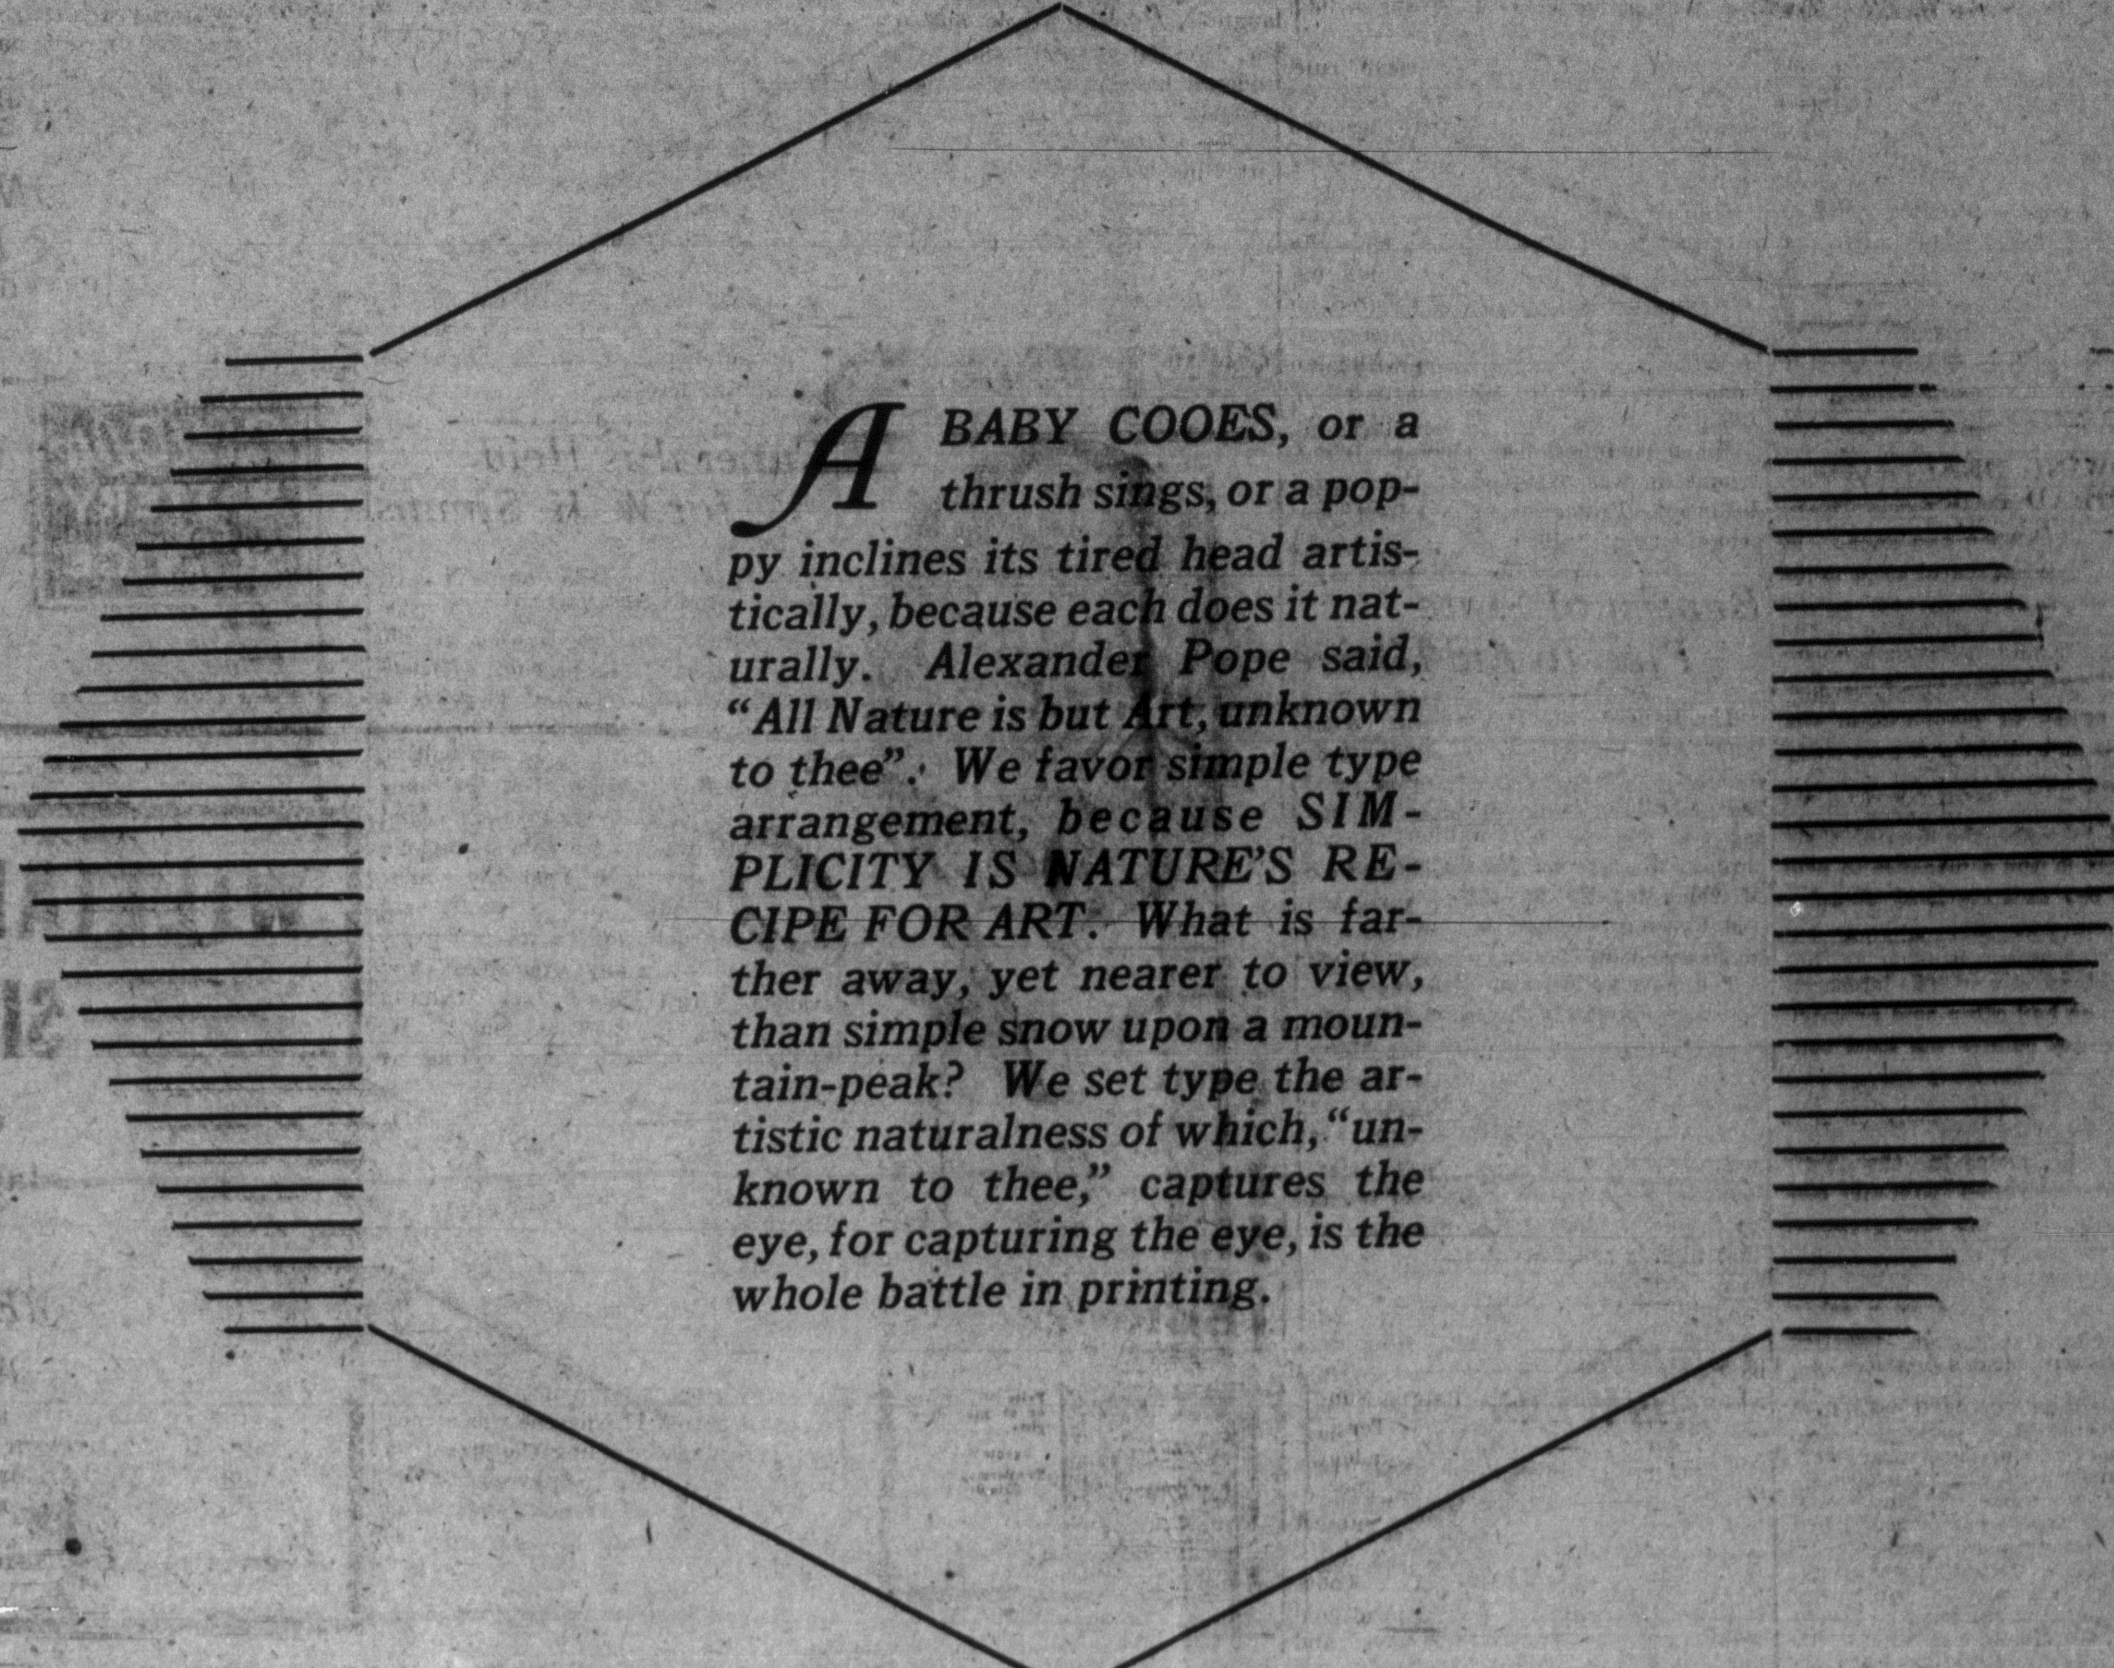

To be sure of this service that is safe and saving; to be sure of protection for your own health and that of your family; to secure help that will take all of the inconvenience and work of washday out of your home, phone us today and our driver will call for your family bundle.

Cooperation of Labor Union and Civic Chamber

(Continued from page 1)

ornia, and that the autos, not his and, paid for the fine roads of that late.

Hutchinson's Appeal.

H. C. Hutchinson, was one of the men who responded to the addresses of the visitors, making the most lengthy and compelling of all the speeches of the evening in favor of co-operation. He said near the close of his speech: "It is our duty as workers, as citizens and as professed Christian men, to get right down to business and co-operate to the limit." Mr. Hutchinson, showed by a sketch of world conditions at the present time, that it would be nothing short of criminal for labor and capital to be at outs. He spoke eloquently for better school facilities, declaring that advanced knowledge was absolutely necessary, if the world was to go forward. He said that the advanced mathematics of the higher schools was indispensable for carrying out the great plans for the future. He spoke convincingly, for early and definite action for a new school building or Albany.

President Cline Speaks.

President Cline said that it was an occasion fraught with endless possibilities for the Chamber of Commerce and the Central Labor Union to join hands as they had done. He said that the influence of such action should be without limit, and should spread throughout the nation.

"Every thing has to have a beginning," said Mr. Cline, "and we have begun a policy of co-operation that I hope will be continued for all time." J. E. Blair, made the first speech in response to those of the visitors, being asked to make the formal reply. He said that it was a pleasure to hear Mr. Rahm say that the local Chamber of Commerce was not joining the United States Chamber of Commerce in the fight on organized labor, especially as he had often said privately that he did not believe the local body was against democracy in industry and collective bargaining. He told the Commerce members that along with every body else in the Twin Cities, he was fed upon "thin air" conversation, and speeches that promised much and performed nothing, and that if the Chamber was asked in the future to co-operate on a school building, he would expect practical co-operation. He declared that among frightened men, they could not be each others guests, and then go away and be enemies to each other, and concluded by saying that he believed that the peace that had been established between the Chamber of Commerce and the Central Labor Union would be a lasting peace.

In the course of the evening D. C. Jones, a former resident of Florence, said that a similar co-operation as pledged last night, was now in effect between the Central Labor Union of Florence and the Central Labor Union of that city.

Attended to Much Business.

A long routine of business was transacted in the regular meeting of the Union. In place of Tul Worley, Mr. Gardiner, of the Railway Clerks, was elected recording Secretary. A number of new delegates were seated. H. K. Laatsch and George M. Webb made encouraging reports on work of agitation and municipal market committees.

W. N. Thomas, who had given them active aid, reported the organization of Albany's first meat cutters union, and stated that the new union would

BASEBALL LEAGUE ORGANIZED, FIRST GAME OF SEASON PLAYED APRIL 15

Schedule Committee at Work on Dates for the Playing Season

FOUR TEAMS ALREADY GRANTED FRANCHISES

W. W. Rahm Elected President of Circuit. Other Officers Named

The Twin Cities Baseball League composed of four teams with the probable addition of two more, was organized Monday night at a meeting of team representatives and fans in the Y. M. C. A. The league will open April 15 and a schedule committee is working out the details of the playing season.

The following officers were elected: W. W. Rahm, president; Walter Ezell, vice president; Dr. McGlathery, treasurer; Stanley Wyatt, secretary; Lloyd Knight, official scorer. The next meeting of the league will be held Monday night, March 28, when all teams were requested to send representatives.

Teams granted franchises at last night's meeting are: Louisville and Nashville shops, Independents, American Telephone and Telegraph company, Spencer Athletic club. It is probable the American Legion and Kiwanis club also will enter the circuit.

Last night's meeting was marked by much enthusiasm and prospects are excellent for a successful season. Announcement was made that arrangements had been made with the management of the baseball park to obtain the playing field this year. Many improvements will be made at the park before the opening game.

The schedule committee will not complete its work until it is ascertained definitely the number of teams to compete. Mr. Dettra presided at last night's session.

Telephone Team is Winner Again

The American Telephone and Telegraph company's team was winner in last's "Y" tournament contest, when only one of the Car Department bowlers appeared:

The scores follow:
A. T. and T. Co. 143 151 198
Saunders 106 85 110
Fitzgerald 135 119 103
Johnson 69 78 151
Harvey 133 143 138
Car Department.

PENOBSCOT NAVIGABLE.

BANGOR, ME., March 22.—Fishermen, rejoice. The ice in the Penobscot River is breaking up. The river will be navigable long before the opening in April.

send delegates to the Central Union at its next meeting. A motion prevailed directing the Central Union secretary to communicate with the Labor Board at Chicago, pledging the Central body's support in upholding the National Agreements, now held by Railway employees throughout the nation.

The sentiment was favorable for asking for an extra session of the state legislature, to vote for the good roads bond issue of \$25,000,000, but no immediate action was asked. Near the close of the session J. W. English, one of the Farmer's delegates present, made an enthusiastic speech upholding trade unionism, especially among the farmers. He said the farmers must "get down and help themselves," and said that their union was proposing an entirely new line of action to that pursued by farmers in the past.

T. J. Martin, of the Carmen, insisted that the union label be asked for and demanded when goods were bought.

Mothers of School Girls Make War on Fancy Garters and "Booze Dances"

(International News Service)

DETROIT, March 22.—Three hundred Detroit mothers have opened war on immorality among high school students.

Assembled in Northwestern High School the mothers declared their intention of fighting "booze party dances" and like entertainments to a finish.

The meeting was called by Byron T. Rivett, principal of Northwestern High, following charges by Principal Edwin L. Miller, of Northern High, that some dances carried on by the pupils after school hours were immoral and that high school boys drank liquor at them.

And the mothers, frankly startled by the difficulties they are experiencing in raising their children in a strange land; American mothers wholly unprepared for the information regarding their sons and daughters gained from the classroom, and others recognizing their problems but not knowing exactly how to meet them.

Pleading for the return of the old-fashioned mothers—whom the daughters of today might call "cranks," Miss Sadie M. Alley, grade principal at Northwestern High School, told the

gathering a few of the things that some of the girls at the schools were doing.

"1. Wearing fancy garters so that they will show.

"2. Rolling their stockings below the knee, a style also discernible to all.

"3. Appear in school differently dressed than when they leave home. A few safety pins transform a dress into any length desired.

"4. Use powder rags openly.

"5. Pencil eyebrows and lashes with ink and fountain pens."

It's Come to this.

Without question the mothers declared drastic action to be vital and adopted resolutions favoring corrective measures, including:

1. Putting all high school students to bed at 9 o'clock every night except Friday and Saturday.

2. Spanking them to bed if no other method will get them there at that time.

3. Adopting uniforms for all girl high school students.

4. Putting a stop to all dances save those sponsored by the high schools.

5. Chaperoning of all high school dances by some of the parents of students taking part.

Zoom!

—as the fliers say

Chesterfields certainly are "zooming"—going up!

Fastest-growing cigarette in the country—fact. One of the few really great blends of cigarette tobaccos. Finest Turkish, blended with mellow Burley and other choice domestic tobaccos—and blended in a way that can't be copied—that's Chesterfields.

Packed, too, in an air-tight package that keeps 'em fresh till smoked.

Satisfy? Well, say—have you tried 'em?
